Coming to South Korea to attend university was a big journey for me. I had had this dream since 2015 when I was 18 years old, and through Dankook University, I got to make this dream come true in 2020. I was really scared, because my home country, Brazil, is literally on the other side of the world, so there are countless cultural differences. I was also scared because I was a little older than my classmates, me being 23 and most of them being 19-20. I was afraid we wouldn't get along or become close. But it turned out I became everyone's favorite "Unnie" and we all get along pretty well despite the language barrier, age, and cultural differences. I've met some amazing people here at Dankook University. I didn't know this before coming to Dankook, but it turns out Dankook has the best Musical Theater major in all of South Korea, and it shows. The people I see every day here are so incredibly talented it leaves me speechless. I didn't have much experience before coming here, but I've improved a lot in such a short amount of time, thanks to all the amazing professors here and the help of my classmates as well. I know I'm on the right path to becoming a great… whatever I'll become in the future (Actress? Dancer? Not sure yet…)

Before coming here, I have already met a few Korean, but there are always many barriers, especially when reading academic texts. I faced some difficulty because of the language, but everyone around me here at Dankook University was always willing to help me, for which I am incredibly thankful. Especially, the courses offer separate classes for foreigners, and I think this was very important in my journey to maintaining a good GPA because those classes are made to accommodate the possible language barrier and make learning a pleasant experience for us. The teachers at the International Office were always of great help too. I am a person who usually has a lot of questions about how to register for a class, asking for help to print a document, etc. The International Office was always helpful, answering my questions quickly and always being kind and respectful.

My dream of studying in Korea might have taken a long to become true, but I can see now that it was the right time and the right decision to come when I came. Living abroad is an extraordinary experience. Every day I spend time here at Dankook University, I become more independent and grow as a person and professional. I still have a couple of years to study here, but thinking about this ending makes me sad already.

檀国大学所能带给我的是我来之前完全想不到的。不仅仅学到了知识,还有独立思考独立生活的能力,丰富了经历,以及与别人沟通的能力,更有因为这些带来的自信。

当时只身来到韩国,是带着各种疑惑,顾虑以及对未知的一丝恐惧。大学3年级的插班生,再加上留学生的身份难免心存担忧。但是檀国大学给了我太多意外的惊喜。

在学习上,学校的老师教学严谨负责,而且为了帮助我这个外国学生还会特意让学习好的学生们帮助我,给我介绍学习流程以及注意事项,以致于让我很快的就能适应学习生活。我们一起上课,一起整理笔记,一起吃饭,一起讨论。教会了我很多在韩国的生存技能,还尝试了美食,在轻松愉快的气氛中学习,效率以及效果都很好。学校的图书馆储备齐全,环境氛围都很适合在考试周刷题做好准备,

在生活上,学校的宿舍设备完善,对于外国学生还特别给予优惠政策。食堂卫生又美味,每天都会有不一样的菜品,而且可以在手机上的学校App中查看。而且时而会有发放小礼品来给考试周的学生们加油打气。学校当然也有丰富的社团和学生会可以参加,种类多样完全可以找到与自己兴趣相投的小伙伴。虽然一开始没有朋友但是参加了几次学校组织的留学生活动后也认识了很多和自己一样的留学生。

由于檀国大学良好的学习氛围以及学校老师们的认真负责,以及在这里愉快的经历,决定进入大学院继续深造。在我喜欢领域中,在导师的指导下,逐渐突破了自己,发掘了更多潜力与兴趣。在做实验以及撰写论文时练习了提前思考,迅速解决,多方面排除寻找问题等能力,见识了先进的医疗机械,以及意义显著的科研成就。

感谢檀国大学带给我的这一切,也很感谢在这里给我留下的美好回忆,如果再给我一次机会我只能说檀大,相见恨晚!

From a young age, I've been captivated by Korean TV shows, and this passion naturally evolved into a deep interest in Korean culture and a strong desire to experience life in Korea firsthand. It wasn't until I met a Korean friend that I found the encouragement and affirmation I needed to take this life-changing step. She recognized my talent for the Korean language and suggested that it would be a good idea for me to study and work in Korea. I began exploring my career path in earnest and finally decided to enroll in the Department of International Trade at Dankook University.

After thorough research and contemplation of various universities, I ultimately chose Dankook University, and it's been a decision I've never regretted. One of the most compelling reasons behind my choice was Dankook University's exceptional scholarship program. The university goes above and beyond to support international students like me, even providing free dormitories, which reduces my financial burden. Moreover, the teachers of the International Office, Global Education Team, have been incredibly helpful to international students like us. They were always quick to provide information and did so kindly to make sure we understood everything we needed.

After entering Dankook University, I discovered an array of additional advantages that reinforced my decision. The professors at Dankook University are not only knowledgeable but also remarkably considerate of foreign students. They try to create an environment where international students can adjust easily to the classroom, encouraging collaboration with Korean students on assignments and highlighting the importance of cooperation. Whenever needed, they also guide us toward valuable opportunities such as internships, ensuring that our educational experience extends beyond the classroom.

Dankook University has a big campus with excellent facilities, including a well-stocked library and a student cafeteria that offers delicious meals at affordable prices. And also, provides plenty of study rooms that are perfect for both exam preparations and group discussions on assignments. These facilities are incredibly convenient and conducive to effective learning. Furthermore, the diversity of student clubs provides more opportunities to form meaningful connections with Korean students from various majors, allowing me to expand my horizons and engage with a wide range of people. Other than that, Dankook University has also provided many comprehensive career exploration and self-management programs that can assist us in charting a course for our future.

Dankook University has not only provided me with an excellent education but also an enriching cultural experience. Their dedication to supporting international students, coupled with their outstanding academic and extracurricular offerings, has made my time here truly memorable. If you're considering studying in Korea, I wholeheartedly recommend Dankook University as the ideal place to pursue your dreams.

My journey with Dankook University started in early 2021, during the COVID-19 pandemic. I admit I had doubts about my choice, especially with Zoom bringing online learning everywhere. However, I was pleasantly surprised by the quality and effectiveness of the online lessons.

The global DKU team played a crucial role in my transition, especially since my major required me to be in Korea by mid-April. After I arrived, they helped me get used to campus life and gave me tips about the area. The International Office staff, in particular, were consistently helpful and welcoming to all international students, answering questions and concerns quickly.

Now, let's dive into my major, Mobile System Engineering. Although I had no programming experience, Dankook's curriculum proved to be very helpful. It took me from a beginner with no programming skills to a great coder, adept at various programming languages, software, and hardware. The professors, a group of dedicated educators, demonstrated kindness and openness. They went the extra mile, treating us to some lunches, offering office hours for clarification and explaining some chapters that we found difficult, and extending their support to international students like me.

Regarding social connections, I initially had many doubts. Yet, I made friends with peers from across the globe, including Indonesia, Malaysia, Vietnam, Mongolia, Uzbekistan, China, Japan, France, and many more. Surprisingly, Korean students were equally open to interactions, displaying curiosity about my culture and chosen major. As well I would suggest some organizations in schools or clubs. I was involved in one of the school organizations which is ISA (International Students Affair). I made new friends and gained experience by helping students and taking care of some events.

Dankook University offers many on-campus facilities, from dormitories, gyms, and kitchens to libraries, study rooms, cafeterias, and many more, which I couldn't mention. The International Office remains a reliable resource for academic and non-academic concerns, responding promptly to inquiries. The university also hosts plenty of engaging events, enriching the student experience.

In conclusion, Dankook University has proven to be an excellent choice for my study in IT and systems technology. The modern facilities and welcoming campus atmosphere exceeded my expectations. My initial concerns disappeared and I continue to cherish the experiences and discoveries I've had while I've been here. In addition to being a university, Dankook University stood as a foundation for my future goals and dreams.

I had always dreamed of studying abroad in Korea someday, as I have a great love for Korean culture and language. Dankook University has made my dream come true since I first came here for the Korean Language Course. It was my first time ever going to a foreign country without my family, so I was scared and worried a lot because I knew I would have to handle everything on my own. However, from the very moment I reached DKU, I was surprised by the warm-hearted welcome of the teachers from the International Office, which rendered all of my concerns irrelevant.

After graduating from the Korean Language Course, I decided to enroll in the undergraduate program here, majoring in Korean Language and Literature. By simultaneously pursuing both the language program and undergraduate program at Dankook University, I have come to appreciate the passion and care that all the teachers and professors at the university show, particularly towards foreign students. Professors here always hope that foreign students at DKU can have a wonderful time and gain valuable experiences while studying in Korea. Recognizing the challenges faced by foreign students in taking classes in Korean, professors consistently strive to create the most favorable learning conditions and are always willing to assist students dealing with academic difficulties or provide advice whenever needed. Additionally, there are some classes conducted in English alongside the Korean ones, which not only make me feel more comfortable at school but also help me improve my English skills while enhancing my proficiency in Korean.

Going back to the time when I first arrived in Korea, I was extremely shy and lacked proficiency in the Korean language, as well as social skills. Consequently, I had no confidence in communicating with Korean people. However, thanks to the teachers of the Global Education Team at the International Office, my study abroad experience in Korea became much more enjoyable and comfortable. They have always been readily available to assist us with any problems and have consistently strived to maintain the well-being of students while also safeguarding the interests of international students living in Korea. They have provided significant help with matters related to visa paperwork, dormitory issues, academic concerns, and more. Taking care of all international students' needs is undoubtedly a complex task, but they handle it brilliantly, which makes me deeply thankful for everything they have done for us.

Dankook University paved the way for an incredible start to my journey of exploring Korea. I hope that what I have shared above can help you make an informed decision when seeking a suitable study abroad environment for yourself.

My journey at Dankook University began as a student at the Korean Language Center in 2022. In May 2023, I enrolled in the International Business major as a full-time student. Studying abroad in Asia had always been my dream, but I hesitated to take such a significant step due to fears of feeling lonely and lost in a foreign country, nearly 8,000 kilometers away from my home country. However, everything changed when I discovered Dankook University (DKU).

Thanks to DKU's outstanding international team, which provides guidance and support to foreign students throughout the admission process and their entire academic journey, I always had a helping hand and someone I could rely on. Thanks to their assistance, I was able to pursue my dream without much worry.

I recall my first day on DKU's campus. I was overwhelmed by its size and the numerous facilities it offered. Nevertheless, I quickly found my way around, thanks to other students who showed me around. Meeting my classmates for the first time alleviated any concerns I had about adjusting because everyone was incredibly welcoming and friendly. The same warmth and kindness extended to all the Korean teachers and professors I encountered. In addition to their impressive qualifications, they are always willing to lend a helping hand, making the learning experience much more enjoyable.

Beyond providing quality education, Dankook University offers a wide range of extracurricular activities, that allow me to socialize with students from different majors and forge friendships with people from all around the globe. Furthermore, small events and annual festivals DKU organizes for us students provide a welcome break from the sometimes strenuous exam period, allowing me to cherish memorable moments with friends.

To date, I have never regretted choosing this path and have adjusted exceptionally well. As I have a few more years left until graduation, I am also very excited for what more is to come. If you are seeking to make the most of your abroad experience just like me, I wholeheartedly recommend studying at Dankook University.

I came to Dankook University in Spring 2020. As an international student, everything was so new and challenging to my university experience. Luckily, the weather was similar to my country Mongolia. Ever since middle school, my parents had planted the seed of the idea of studying abroad in my head. I wanted a new experience even though; it could be challenging. I was frightened and excited at the same time. I was worried about my language limitation, but now I can confidently say that every part of my freshman year was memorable and rewarding. I learned so much about the school, the language, the culture, and new people during that time.

Because of the Covid-19 pandemic, my first semester had to start with online courses. This situation was unexpected for everyone, but all my helpers, such as the staff of the International Office, did their best so that we did not notice any change in the teaching approach, except that we do not attend the University campus for classes. The Office of International Affairs and Faculty Office remain in contact with us whenever I need something, and I have received immediate responses on the KakoaTalk. All the professors and university staff adapted well to this situation and immediately informed us about the further steps: how everything would go and what changes awaited us.

All classes were moved online, but the professors tried their best to teach us the same way as we were sitting in the same room with them on campus. Seminars were teaching through zoom and e-learning campus, where both my classmates and I were to share the views and results of our assigned activities. We have been offered tremendous support from Dankook University. They have been doing everything they can to help us complete these semesters without any problems. Most importantly, the courses were being taught as efficiently as possible during the pandemic. I am grateful that Dankook university has done everything to make students feel satisfied.

I appreciate my studies a lot, and I am still enjoying them. It has been a valuable experience for me to study at Dankook University and find my way in Korea, but it was challenging. If you have good motivation to start, that will keep you strong as if you are passionate about your career or, if you want to move to Korea, you will come over your problems, and the experience will be worth your struggles in the end. Otherwise, it might be stressful and overwhelming to deal with problems and difficulties. Finally, everyone will have a different, unique experience. If you are motivated but hesitant, as in everything else in life, please jump into it, then you will find your way!

The university is the place where people spend one of the unforgettable parts of their life and get known to the real life. My first step to adult life has started as choosing Dankook University in South Korea.

Yes, I had lots of thoughts and worries about leading an in different country and study at the university where I can meet fewer people from my country. As a newcomer, people have a variety of problems as well as culture shock. I don't say I have not experienced any of them, but the people and the atmosphere around me have helped me a lot to overcome those all.

I remember the time when I came here, I didn't know anything about my studies and living here, but the International Office of Dankook University helped me out in any case. Even I haven't worried about either my extension visa or registering classes when I was a freshman. Whenever I had faced an issue, they always reached out to help and tackle the problem that I had. I can say I found someone, who I can bear when I am in South Korea, it doesn't matter whether it is a personal or general problem. In addition, the GTN group at the university also has a vital role for every exchange and international student life, as they help students to get used to Korean life, organize ceremonies and parties, and make small tours around the city. Those all help foreign students to know more about South Korea and make both Korean and foreign friends.

The next point that I have to say is the campus life. I love my campus area, and maybe that's a reason because I am into nature. Surrounding with small forest and tons of trees make campus look like the magic place. Placing the building also plays an important role as students like us can find classrooms easily. Reaching my dorm and to the library is super close, I guess that is a thing all students want. Having a good kitchen is also one big plus, and it allowed me to cook the food that I missed more. Sports facilities are another point that impressed me, as I do a workout there were good options to use the gym and outside the park whenever I needed them.

In one word, it wasn't easy to decide which university is proper for me, but eventually, I have done my choice right. Today, I am happy that I am a student of DKU and continuing my studies well. Hopefully, I also wish you can achieve what you want here at Dankook University with us.

Choose your University, choose your Life!
